

SAS provides a unique end to end capped rate service to satisfy all of your resourcing needs, through the creation of bespoke management solutions.

Synarbor Absolute Solutions offers:

- ✓ Recruitment & retention of the highest quality candidates available
- ✓ Effective & efficient response to resource requirements
- ✓ Reducing the time, money and effort spent on resourcing
- ✓ Best fit resource campaigns
- ✓ Synarbor Absolute Solutions is a multi-stage, multi-layered customised process, designed to fulfil your resourcing requests for every position, every time.

We progress through each step until we find you the best candidate.

Step 1: Campaign Management

Bespoke print and online advertising campaigns, and analytical and predictive modelling through environment mapping is created, to ensure best fit between candidate & your organisation.

Step 2: Direct Database Search

Search extended to Synarbor's extensive database of existing candidates, from our established social work and education contingency businesses.

Step 3: Overseas Sourcing

Engage Synarbor's international network of offices to widen the search to overseas candidates, sourcing candidates from Australia, New Zealand, South Africa, Canada, USA and beyond.

Step 4: Synarbor MSP

Should we reach step 4, we will then take on the challenge of filling your requirements through the UK's leading education-based managed agent. Utilising a subsidiary of Synarbor PLC, this multi-agency network can provide interim candidates to fill your vacancies whilst the ideal permanent candidate is identified.
